How it works

We are able to run virtual cook a long with a BAO host. However if you prefer to use your own, we recommend you nominate a host to lead.

Each box comes with instructions for the rest to follow, but its a nice touch for a host to bring everyone together. For more details of a BAO hosted virtual cook a long, please email:

→ info@conveniestore.com

For Video conferencing, we recommend you use the software of your choice, however we can recommend a couple if you wish.
